# About Our Company

WORKFORCE ENERGY CONTRACTING EST. (WFE) is a certified company accredited with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018. We specialize in Electrical, Telecommunication, Instrumentation, Civil Works, Steel & Structural Fabrication, Heat Exchanger Tube Cleaning, Fiber Optic Solutions and Specialized Services including Health care Infrastructure.

Established on February 15, 2009, WFE is a 100% Saudi-owned company with more than 16 years of proven experience in industrial, petrochemical, chemical, and oil & gas projects.

WFE is powered by an innovative, dynamic, and highly skilled team with extensive experience in civil, structural, electrical, instrumentation, and telecom works. We operate dedicated workshops for steel fabrication and electrical/instrumentation testing, enabling us to provide complete, end-to-end project solutions.

# Our Vision

To be a leading force in the electrical, mechanical, and civil sectors, driving innovation, sustainability, and economic diversification in the Kingdom of Saudi Arabia — empowering people, advancing local content, and contributing to the success of Vision 2030.

# Our Mission

To deliver innovative, sustainable, and high-quality industrial solutions and services that support the Kingdom's transformation goals — empowering local talent, driving economic growth, and contributing to a vibrant society and thriving economy.

# C.E.O's Message

“We have earned the trust and respect of our government and private-sector clients for one simple reason — we have great people. Our team consists of experts in their fields who bring a strong service ethos, pride, and ownership to every project. Our mission is clear: to ensure our clients’ objectives are achieved with the highest level of capability, assurance, and cost efficiency. Our methodology ensures that critical programs and projects are executed on time, with outstanding performance and reliability. Clients trust us because they know we have the expertise to elevate service delivery to the next level.”

**SAUD J AL QAHTANI**

C.E.O

# Core Values

## **SAFETY**

We never compromise when it comes to the safety of our people, partners, and work environment.

## **SUSTAINABILITY**

We adopt sustainable methods and innovative practices that provide optimal solutions and enhance the environments in which our clients operate.

## **QUALITY**

We do not deliver just a service — we deliver quality you can trust.

## **INNOVATION**

Innovation is an integral part of our operations, guiding our approach to maintenance, development, and service improvement.

## **EXCELLENCE**

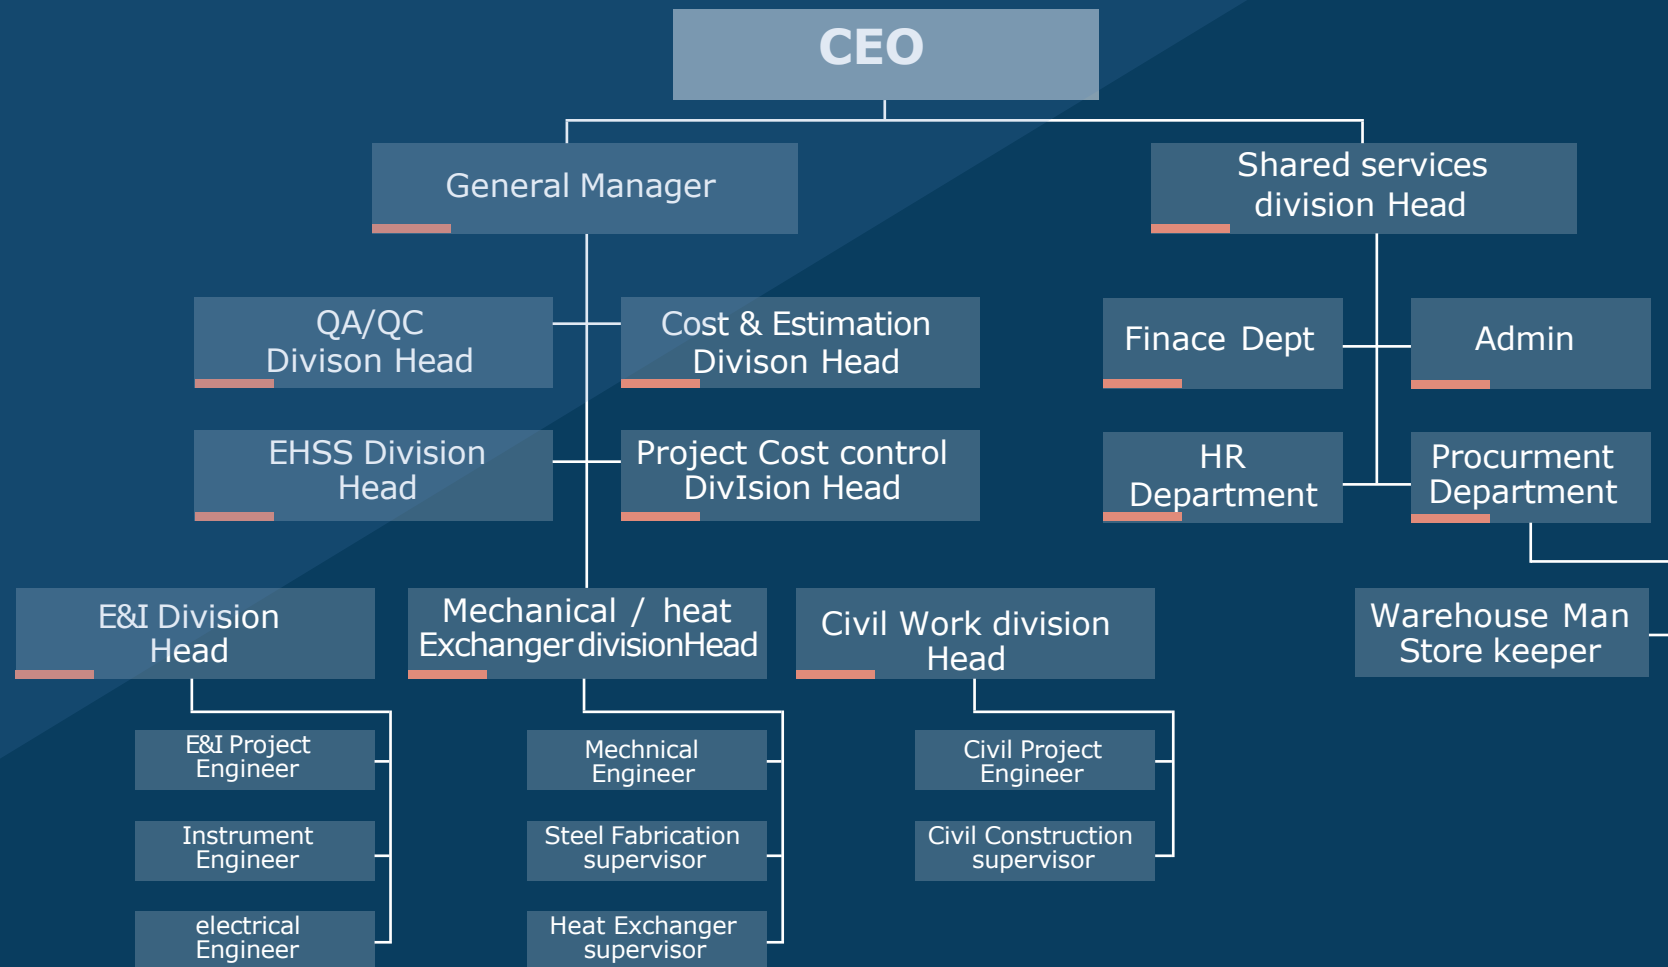

We strive for service excellence through precision, timeliness, and a committed team of skilled professionals.

## **INTEGRITY**

Integrity and honesty are fundamental to our culture — both internally among our team and externally in every interaction with customers.

# Organizational Structure

Over the years, we have delivered exceptional results across multiple sectors, including:

Electrical & Instrumentation

Telecommunication Systems

Fire Alarm & Firefighting Solutions

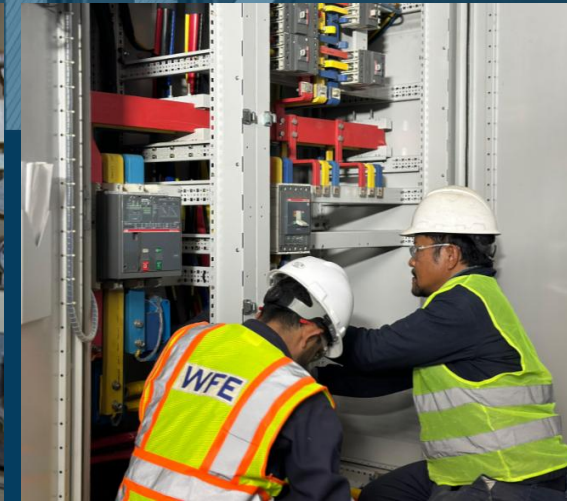

Civil & Structural Works

M.E.P for Projects  
(Commercial & Hospital)

Specialized Services- Heat  
Exchanger, Cold Galvanized Coating

At WFE, we are fully committed to delivering high-quality workmanship, reliable services, and strict adherence to health, safety, and environmental standards. Safety is at the core of our culture and operational philosophy.

# Our Services

## 01

### Electrical Services

- Switchgear & Panel Board Installation•
- Lighting Works, including Engineering and Lux Level Calculations•
- MV & LV Cable Laying, Testing & Termination•
- Grounding & Lightning Protection Systems (Engineering & Design)•
- Cable Tray & Conduit Installation• Interposing Relay Panel Replacement & Modification•
- UPS Installation with Battery Banks (Testing & Commissioning)•
- Electrical Cable Trenches & Duct Banks.

## 02

### Instrumentation Services

- Transmitter Installation (PT, LT, TT, DPT, FT & Switches)
- Installation of Pneumatic Control and On/Off Valves
- Impulse Line Tubing Installation
- Calibration, Testing, Loop Checking & Proof Testing
- Cable Installation, Termination & Interconnection
- PLC Panel Installation & Engineering
- Analyzer Installation & Detailing

03

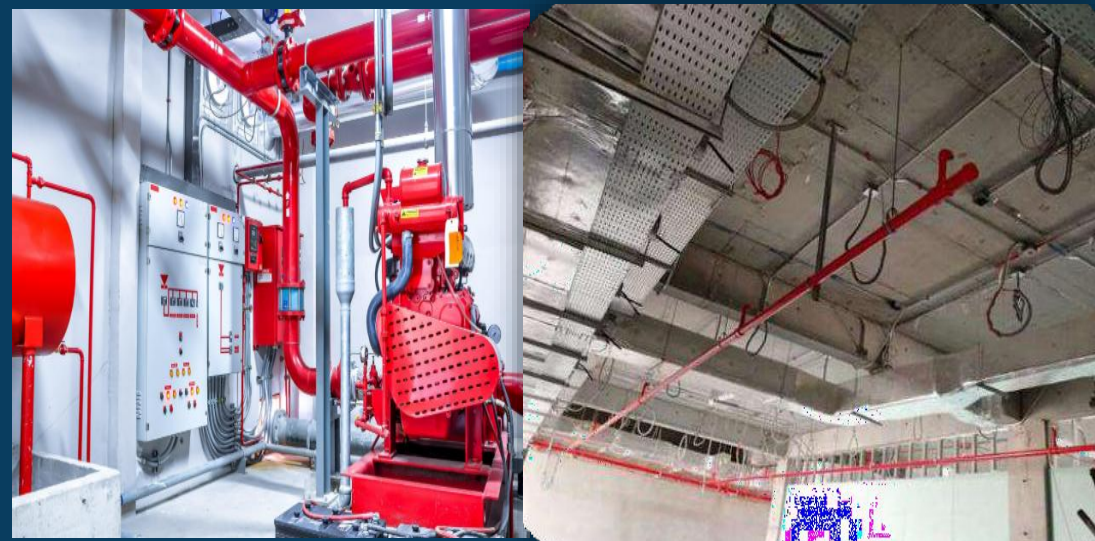

## Telecommunication Services

- Engineering & Design of Communication Networks
- Fiber Optic Cable (FOC) Installation, Splicing & OTDR Testing
- Network Cabinet & Data Cabinet Installation
- Telephone System (CAT6) Installation
- Supply, Installation, Testing & Commissioning of System UPS

05

## Mechanical Services

- Pipefitting & mechanical services
- Fabrication Services
- Bolt tensioning & Torquing Services
- Mechanical & Joint sealing Services
- Structural Steel Fabrication & Erection

04

## Fire Protection & Fire Detection Systems

- Fire Suppression System Installation
- Sprinkler System Fabrication & Installation
- Fire Alarm System & FACP Panel Installation.

06

## Civil Infrastructure Services

- Renovation & Restoration
- Construction Services
- Roof Repair & Waterproofing
- Excavation Services
- Steel Structure Erection
- Structural Foundations, Cable Trenches, CMU & Finishing Works
- Manholes & Handholes
- Building Wall & Roof Works
- Modification, Renovation & Concrete Tank Works. Fabrication & Installation of HCIS Fencing
- Foundation Works, Brackets, Civil Foundations Beams

07

## Safety Devices for Forklifts & Lifting Equipment

- Supply & Installation of Anti-Collision System
- Camera and Monitor Systems
- Sounders & Alarm Systems

08

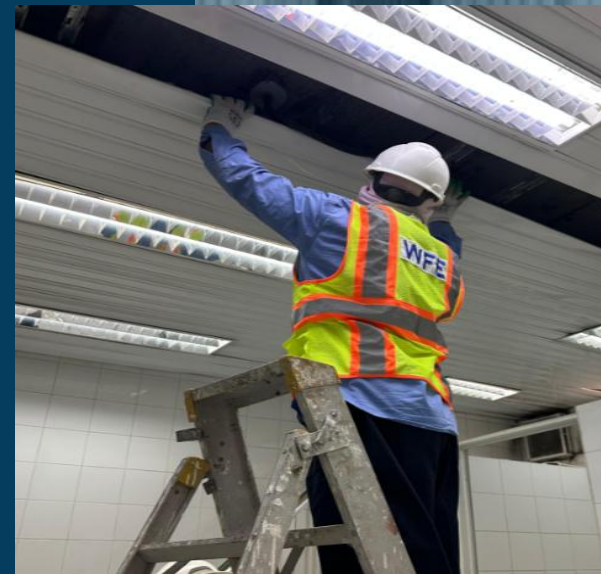

## Sandblasting & Painting Services

- Sandblasting and Painting of Tanks, Steel Structures, Gratings, Platforms & Pipe Racks

# 09

## Industrial Turnaround & Shutdown Service

- **Electrical Works:**
  - MCC Relay Modifications
  - Control System Works
  - Cable, Conduit & Cable Tray Works
  - Interposing Relay Modification
- **Instrumentation Works:**
  - DCS Interconnection & I/O Card Services
  - Instrument Testing & Loop Checking
  - Tubing Installation & Leak Testing
  - Control Valve Testing
- **Mechanical Works:**
  - Pump Replacement
  - Motor Replacement
  - Structural Works for Tanks & Vessels

## 1. Health Care Infrastructure

“Workforce Energy is at the forefront of revolutionizing healthcare infrastructure with our unparalleled expertise in providing comprehensive turnkey solutions for hospital operating rooms.

Our dedicated team of experts combines decades of experience in medical engineering, project management, and compliance to deliver bespoke OR solutions tailored to the unique needs and specifications of each client.

From designing state-of-the-art operating room layouts to sourcing and installing cutting-edge medical equipment, our end-to-end approach guarantees seamless integration and optimal functionality.

At Workforce Energy , we recognize that the successful implementation of an operating room goes beyond mere construction—it's about fostering an environment that promotes patient safety, surgical precision, and healthcare efficiency.

That's why we meticulously oversee every aspect of the project, from architectural planning and equipment procurement to facility commissioning and staff training.

# We are a full turnkey solution provider for healthcare sector.

Operation Room-  
Surgery Room

RADIOLOGY ROOMS  
(X-RAY- CT – MRI)

## 2. TUBE PLUGGING & TESTING

**Workforce Energy is a sole Dealer and Service Provider for IPCO Plug which Manufactured in Netherlands.**

- ❖ IPCO Plug are the mechanical Plug for Heat Exchanger Tubes.
- ❖ IPCO Tube Testing is the Testing Devices guaranteed to test the Heat Exchanger tubes for any leak or Damage

IPCO is specialized in the production and supply of the IPCO Plug and leak detection equipment for heat exchangers

A Direct Partnership with IPCO Plug and IPCO Tube Testing, a Tube Plug and Tube Testing Manufactured in Netherland which can provide a diversified solutions in heat Exchanger.

With this Partnership, the problem in tube leaking can be solve without a Turn Around shutdown.

❖ .

### 3.Distributors- ZRC Cold Galvanizing Coating

ZRC is a globally trusted cold galvanizing compound designed to provide long-lasting corrosion protection for steel structures and metal surfaces. Its high zinc content delivers superior anti-rust performance, making it ideal for industrial, marine, oil & gas, and infrastructure applications. We are proud to be the authorized distributors of ZRC Worldwide products in Saudi Arabia, supplying reliable coating solutions across the Kingdom.

#### Advantages of ZRC Cold Galvanizing Paint

- ❖ Provides excellent long-term corrosion and rust protection.
- ❖ High zinc content offers cathodic protection similar to hot-dip galvanizing.
- ❖ Easy to apply by brush, roller, or spray
- ❖ Fast drying with strong adhesion to steel surfaces
- ❖ Suitable for harsh industrial, marine, and coastal environments.
- ❖ Easy maintenance and touch-up for damaged galvanized surfaces.

- ❖ **Applications:** Steel structures and fabrication works.
- ❖ Oil & gas plants and pipelines.
- ❖ Tanks, storage vessels, and industrial equipment.
- ❖ Marine and offshore structures.
- ❖ Transmission towers, bridges, and infrastructure projects.
- ❖ Repair and maintenance of galvanized steel surfaces

# Our Achievements

We have successfully delivered high-quality industrial, electrical, and civil projects, earning the trust of major clients through safe, reliable, and on-time execution

**40+**

## Completed Projects

With a proven record of quality and on-time delivery.

**350,000+**

## Safe Man Hours

Executed with strict adherence to safety standards.

**20+**

## Major Clients

Including SABIC, ARAMCO, PETROKEMYA, and leading industrial companies.

**15+**

## On going Projects

Across industrial, electrical, and civil works sectors.
